- > high-degree burglarproof cabin
- > 4 seats in cockpit
- > 2 separate double beds
- > designer bedroom on 1st floor
- > comfort amenities in the cabin

Design auf 2 Stockwerken  
Design on 2 levels

Being ACTION MOBIL (e)  
...with the original!

Experience living in an ACTION MOBIL AROCS HD 4x4

The second living room level accommodates the spacious double bed.  
The lifting roof makes it possible and besides that, the overall length of the cabin is reduced by 2 metres.

Unusually wide living room area, function and convenience in a motorhome designed for off-road use.

Sleeping, living. Kitchen and sanitary area functionally separated so that they are not in each other's way.

Clear architectural lines combined with high-end materials in the interior set the atmosphere. Light furniture surfaces made of real wood, in combination with the solid wood of the tabletop and the wooden floor give this ACTION MOBIL a special touch.

The seating group is arranged slightly higher up and is separated from the other functional areas. It provides sufficient space for 4 to 6 persons. Moreover, the large table with its top of solid wood can be lowered electrically, making a second spacious double bed. In case you have to stay overnight in insecure areas, all windows will be closed burglarproof while the roof is lowered at the same time. Even if the lifting roof is lowered, all systems on the lower living-room level will function without problems.

## AROCS HD 4X4

Ample storage! Lots of drawers and partitioned cabinets make it easy to keep order on long trips.

The day is coming to an end – this is when the cozy hours start in the ACTION MOBIL.

Time for personal care in the separately arranged sanitary rooms.

Relaxing in the seating group upholstered in real leather and starting the new day relaxed after a good night's sleep.
