ACTION MOBIL

... das Original!

People who love travelling the world in an off-road motor home are individualists.

They will therefore take individual decisions concerning dimensions and equipment of the future vehicle of their dreams.

While some of them will not want to do without the conveniences of a luxury apartment in the Outback, others will prefer extreme off-road performance with a compact and light-weight body.

Even the shorter ACTION MOBIL cabins come equipped with everything that makes an adventure trip a special experience.

In case you decide on such a smaller cabin version, we would advise you to choose an Unimog as carrier vehicle. Thus, a sufficient reserve of load capacity is available, making the vehicle perfectly suited for use in rough off-road terrain. Different wheelbases, optionally 2 or 3 driven axles, make possible various cabin lengths.

TEMET 3600 is such a new ACTION MOBIL model.
The model name has been chosen deliberately. Témet is a place in NIGER, and Sahara freaks are sure to remember such impressive names like AGADEZ, the routes of caravans to BILMA, etc.

IIn TÉMET lie the tallest sand dunes of the Téneré, which reach a height of 300 metres.
This is the terrain cut out for the ACTION MOBIL „TEMET 3600" mounted on an UNIMOG chassis.

This ACTION MOBIL cabin variant with an UNIMOG chassis may rightly be called a typical expedition motor home. Short, compact and highly manoeuvrable – there will be hardly any obstacle it cannot overcome!

ACTION MOBIL...das Original!

ACTION MOBIL

Pure pleasure in a TEMET 3600
Adventure away from all tracks!
... That's what many ACTION MOBIL owners cherish!

TEMET 3600

ACTION MOBIL

...the Original!

FULLY EQUIPPED IN AND OUT
Functionality and comfort in minimum space

Top off-road performance combined with a high degree of comfort and security – this is what characterizes a perfect expedition motor home. The TEMET 3600 showcases explicitly all these properties. The furniture made of natural wood, provide for a warm atmosphere and a feeling of security. The kitchen equipment leaves nothing to be desired and will delight also hobby cooks. The settee and the cleverly designed bed will quickly make you forget the strain of the day. And most important when travelling in an „OUTBACK", is that the sanitary facilities like toilet, shower and warm water heating are separated from the rest of the cabin.
