POLAR ADVENTURE AT ARCTIC TEMPERATURE!

THE ACTION MOBIL TRIO
PURE 4500 HB – and twice – ATACAMA 6000
on the way to the Arctic Circle

ACTION MOBIL ATACAMA 6000

...stationed at a Scandinavian fjord in winter
Unique pleasure experience for individualists!

Biting cold outside – cuddly warmth inside,
this is what makes travelling in arctic regions fun.

Hot water heating – floor heating - and panel heating systems
plus design lighting provide cosiness and atmosphere in the living area.

The view through the thermo windows arranged all-around affords an unforgettable
view of the wintry fjord landscape. Sheer pleasure in an ACTION MOBIL!

The image shows the interior of a motorhome, specifically the living area. A wooden table is positioned in the center, flanked by two long, upholstered benches with cushions. Large windows line the sides and the front, providing a panoramic view of a snowy landscape. The ceiling is white with recessed LED lighting strips. The floor is made of wood. On the right side, there is a white countertop with a sink and a curved faucet. The overall design is modern and minimalist.

This ambience
captivates with its
uncompromising
architecture, clear lines,
stylishly chosen materials and
a 360° view from the seating area.

ACTION MOBIL ATACAMA 6000

The front part of the cabin accommodates toilet and shower, separated from one another by doors. Easily visible access to the driver cab.

The ACTION MOBIL fridge: 8 cm insulation, practical drawers, spacious compartments for bottles, designed for off-road terrain!

Swing-out TV screen with space for the media library.

Smooth surfaces without handles, secured by central locking.

Hello Stephan,
In our deep-temperature
test we had no problems –
everything was top. In the
Kiruna area the temperature
was down to -22°centigrade
and lots of snow on the
inland track. Both the MAN
and your vehicle body were
perfect.
Love, G.
